

# The Computer Science and Engineering Mentorship Programme 2014

Establish your goal. Build your dream.

The 1-year mentorship programme aims at establishing connections between students and alumni. The programme will be of mutual benefit to both parties. Most of our mentors are graduates in Computer Science or related programmes at HKUST. They are now working as consultant, entrepreneur, IT sales professional, medical physicist, online marketing manager, researcher, teacher in IT-related subjects, software developer and software architect, among others.

Quota is limited. Please apply now!
